

To our Valued Customers,

We have exciting news to share with you!

On March 2nd, Thriva, the parent company of CampRegister, EventRegister, GeckoTrack, LeagueRegister and SchoolEnroll, was acquired by The Active Network, Inc. (www.TheActiveNetwork.com). The Thriva software you rely on will be strengthened with the continued goal of providing the best online registration and management tools in the world. Together, as a company with 37 years of combined industry experience, we increase our ability to meet your technology and support needs and those of future customers.

The entire Thriva team including co-founders Matt Ehrlichman and Robbie Rech as well as your support team remains with the company. We are as committed as ever to providing industry-leading technology and support to live up to our motto of *Delivering Customer Success*. With the addition of Active's resources, our focus is to continue adding quality features to your system with increased speed for an unparalleled value.

The Active Network provides software and marketing solutions for community service and participatory sport organizations and works with tens of thousands of organizations around the world. In addition to technology, The Active Network has excelled in marketing and promoting community events with sites like Active.com, eteamz.com, and ActiveGolf.com. These community portals support over 9 million registered users who generate 131 million monthly page views to help generate support and registrations for events.

For your day-to-day operations, you will experience very little change. You will continue using the same technology and working with the same support team. The added expertise of The Active Network allows us to build upon our existing software more rapidly and offer exciting new opportunities to you in the future.

Again, we thank you for your continued support. We are certainly excited about the possibilities of this acquisition and hope you are as well. We strongly value each relationship we have built over the years and welcome you to contact us directly with any questions you have.

Sincerely,

Matt Ehrlichman
CEO, Thriva LLC
